

Housing Strategy Meeting notes.

Top priorities.

Send specific housing allocators.

Protection for forced moves.

Borough not to move children with disabilities to far cities where they have no support.

Fully adapted properties appropriate for children with disability issues

choice?

parents feel there is no choice

no discussions made behind parents backs.

no false allegations.

Safety.

To take into consideration children with disabilities and their vulnerabilities.

Independent living ensure vulnerable adults are placed in appropriate housing accommodation with gender specific. Housing must fit the needs of Pacific families. Needs to be fully adapted. Good communication responses to contact and meeting timelines no children with disabilities in high rise properties. Speak to a human rather than an AI for better accessibility. Provided with the truth and not misled having a named key worker to deal with any safeguard issues Pacific to the family full stop acknowledging the different gender and the need for separate bedrooms for siblings privacy for parents having privacy for parents as many parents said a bedrooms with their children. Receiving respect from The Professionals for stop. Language barriers to ensure communication can be understood and translated

for phone calls. Clear processes pros processes. Dedicated local for team department to listen and follow concerns and issues raise from private tenants and landlords. Information on on landlords should also make reasonable adaptations for autistic and disabled children.

Housing teams -communication parents need to have clear understanding of forms, procedures,policies,timescales and must be accountability of missing deadlines.

Availability of criteria for shared semi independent housing fir disabilities, autism, mental health first young people.

How do parents and young people apply for semi independent living and the other options., the supply, demands in Barking and Dagenham.

How clear are these demands- making them visible to the public.

Under safey.

Property having individual locks on windows and doors

Having the needs of the young person firmly at the centre of placements.

Risk Assessment carried out and continued regular.

Clear and transparent information on the law, regulations and safeguarding responsibilities.

What services are available to support the parents and young person.

Housing support available for needs assessment for the family or young person.

Better storage for disabilities equipment.

No young person put outside the borough to gain support from family and friends.

Staff having knowledge of children and young people

disabilities while rehousing.

Young people who are classed as a children in need to have better services from social workers.

Children in need seem to have no help from adult social care.

Assessment of current properties that send adults already live.

Making sure current properties still meet the needs of the tenants.
